## Delivering an Immediate Response

Response Technologies Centurion Elite offers the quickest Direct to Responder (D2R<sup>®</sup>) active shooter solutions on the market. Our line of wireless and network-based sensors can be deployed throughout a facility, campus, or even across the country. When a gunshot is detected, or a panic button is triggered, the Centurion Elite<sup>®</sup> will send an immediate emergency notification to first responders within two seconds.

Delivery methods can include any combination of email, text message, phone, computer software, or the fastest form of emergency contact: two-way radio. These delivery method combinations are designated in Elite Audiences<sup>®</sup>, which allow users to customize specific responses based on the sensor that is activated. With the Centurion Elite<sup>®</sup>, the user can assign all sensors to alarm in the same way or can customize each individual alarm to activate a different response.

When seconds count, response is everything

## USE CASES

**GUNSHOT DETECTION** — Immediately knowing when and where a gunshot occurs is key to stopping an active shooter event. Using gunshot detection sensors, powered over ethernet, with your Centurion Elite® creates the fastest connection to a law enforcement response possible. Two-factor authentication ensures that only true emergency events are reported to emergency responders.

**DURESS SYSTEM**— Workplace violence can occur anywhere, anytime, and in any industry. Whether it's a nurse dealing with patients, a receptionist dealing with customers, or a human resources member dealing with their own employees, having the peace of mind that you aren't alone in these situations can go a long way in workplace satisfaction. By equipping your employees with a Centurion Elite® duress solution, you allow employees the freedom to go about their workdays while having an instant connection to assistance, should a need arise.

## COMMON SENSORS

### GUNSHOT DETECTION

- Two-factor false trigger prevention
- GUY BSBW
- IS CBUUFSZ CBDLVQ

### WIRELESS PENDANT DURESS BUTTON

- Robust wireless range
- 3-5 year battery life
- False trigger prevention

### WALL MOUNT DURESS BUTTON

- Robust wireless range
- Flush or gang box mount
- 3-5 year battery life

## FEATURES

- Responders are notified XJU lin BCPVU 2 seconds of alarm24/7 sensor monitoring ensures system is always ready for use. activation.
- D2R communication allows users to bypass third parties and go straight to the responders.
- The Centurion Elite® can send two-way radio notifications to three different radio frequencies at the same time.
- Built-in false trigger avoidance technology ensures only real alarms make their way to responders.
